

Reptile Wrap

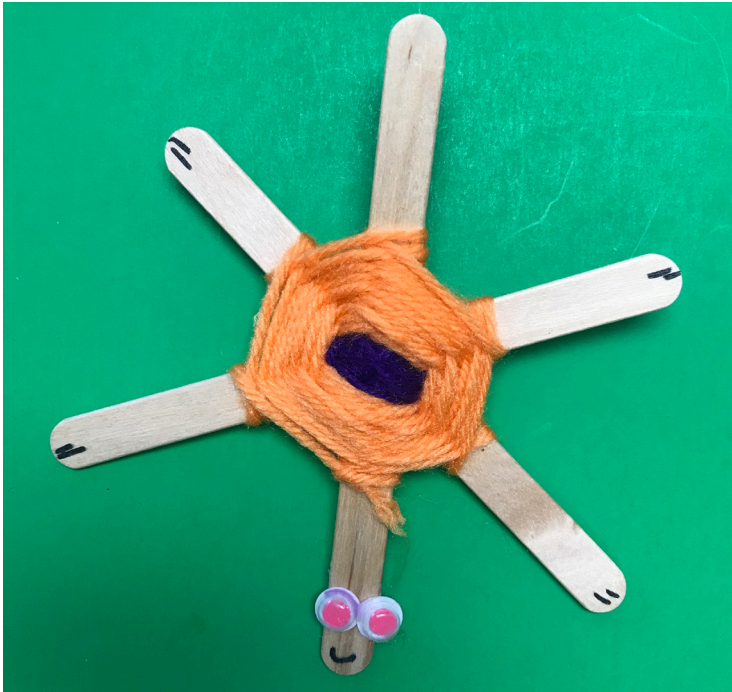

Summer Reading Program

Included in the Kit:

- Craft Sticks
- Yarn
- Self-adhesive Googly Eyes

Supplies Needed from Home:

- Scissors
- Additional yarn or colored string (*optional*)
- Markers (*optional*)

Instructions

Step 1: Color three craft sticks (optional)

Step 2: Cut a piece of yarn or string about two feet long. Stack the three craft sticks then tie one end of the yarn to the stack.

Step 3: Spread the bottom two sticks out to make an X. The top stick will be the head and tail of the turtle.

Step 4: Weave the yarn over the center of the sticks to the opposite side, wrap underneath and rotate. Repeat and rotate until the middle of the craft sticks is covered with yarn.

Step 5: Next, begin wrapping in a god's eye pattern. Wrap the yarn once around a stick and pull. Now bring the yarn to the next stick, wrap around once and pull. Repeat this in a clockwise rotation until the shell is complete. To change colors, tie a new piece of yarn to the end of the working yarn.

Step 6: When the shell is complete, tie the end of the working yarn to the craft stick and cut off any remaining string with scissors.

Step 7: Draw a face and toes on the turtle and attach the googly eyes.

Tip: Tie a string to the underside of the turtle to create an ornament or decoration for your room.
